

We Understand. We Guide. We Act.

Your Business. Our Priority.

Not every business has a CFO, accountant, or bookkeeper on staff.

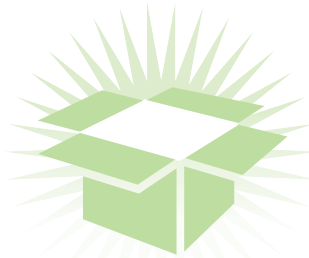

At **Barsz Gowie Amon & Fultz** (BGA&F), we work hard to become a trusted part of your business team throughout the year, not just at tax time. We are a valued partner to small and mid-sized, closely held businesses because we believe in the power of relationships. We believe in guiding our clients the right way to achieve their financial security and success.

Our certified public accountants (CPAs) and other accounting professionals start with a deep dive to better understand the facts, analytics, trends, and other metrics that drive your business—metrics that have the biggest impact on your financial success. We design comprehensive financial and tax services that keep your business on the right track, and help you plan for the future.

Accounting and Attestation Services

- Audit, review and compilation services
- Financial forecasts and projections
- Budget preparation
- Client reporting on a monthly, bi-monthly, or quarterly basis
- Analyze operating results
- Bookkeeping and general accounting assistance

ASK ABOUT

BUSINESS IN A BOX

We created a proven checklist for small businesses to help start a business the right way, run more effectively through the year, and ease the crunch of tax time.

Business Consulting

- Cash management and cash flow projections
- Business entity selection
- Risk management
- Valuation and financing, including guidance on business loans
- Compensation and benefit plans
- Computer-based accounting systems and software
- Business continuity and succession planning for closely-held and/or family-owned businesses
- Mergers and acquisitions
- Financial analysis, including economic projections and long-range planning objectives
- Business plan preparation—startup's and existing entities

Business Tax Services

- Tax advice and compliance based on the latest federal, state, and local regulations
- Tax return preparation, including corporations, partnerships, s-corporations, LLC's and not-for-profits
- Represent business clients before the IRS if needed

Tax Planning Services

At BGA&F, we provide tax planning services to help business clients understand and prepare for tax implications related to various procedures, including the following:

- Transfers of ownership
- Changes in inventory
- Mergers and acquisitions (M&A)
- Depreciation methods
- Business entity selection
- Contract accounting

Financial & Estate Planning

- Analyze a business owner's financial and tax situation
- Create estate plans and plans for retirement
- Assist in risk management and insurance planning
- Advise on investments, including IRAs and other qualified retirement plans

What's Your Business?

At BGA&F, we have CPAs and accounting experts who already understand the intricacies of your industry, and can quickly work with you to customize plans to benefit your business, including the following:

- Manufacturing
- Health care, including medical, dental, and physical therapy
- Defense
- Construction
- Real estate
- Retail
- Foodservice
- Insurance
- Legal
- Lobbying
